-

Career Summary

- Software Engineer with a background in Computer Science, passionate about building scalable, efficient, and user-friendly applications. Strong problem-solving skills with expertise in backend and frontend development, databases, and cloud deployment. Excels in collaborative environments, driving innovation through modern technologies and best practices.
-

Professional Experience

Semicolon Africa, Lagos, Nigeria Software Engineer (2024 – 2025)

- ◆ Full-Stack Development – Hands-on experience in backend (Java Spring Boot) and frontend (React, HTML5, CSS3, Tailwind).
- ◆ RESTful API Development – Built scalable APIs using Spring Boot for efficient server-side operations.
- ◆ CI/CD & Deployment – Implemented CI/CD pipelines using GitHub Actions, Render, and Heroku for automated deployments.
- ◆ Database Management – Worked with PostgreSQL, MySQL, and MongoDB for efficient storage.
- ◆ Testing & Documentation – Wrote unit & integration tests using JUnit, following TDD best practices. Documented APIs using Postman for clarity and usability.

Independent Software Development & Projects

Full-Stack Developer (2021 – Present)

- Designed, built, and deployed multiple frontend-focused web applications with supporting backend services
 - Developed responsive, accessible user interfaces and integrated them with RESTful APIs
 - Implemented authentication, data validation, and robust error handling in backend components
 - Deployed applications using cloud platforms with Git-based version control workflows
 - Continuously improved code quality, performance, and security through testing and best practices
-

Education

- ⇒ Semicolon Africa, Lagos, Nigeria – Software Engineering (2024 - 2025)
 - ⇒ Kwara State University (Kwasu), Malete – BSc, Computer Science (2016 - 2020)
 - ⇒ Bayero University Kano (BUK), Kano – Diploma, Computer Science (2012 - 2014)
 - ⇒ TAQWATECH Computer Training Institute, Ilorin – Diploma, Computer Engineering & Networking (2009 - 2010)
 - ⇒ National Youth Service Corps (NYSC) – Exemption Certificate (2021)
-

Projects

To-Do App System (Backend)

- ❖ Designed and developed a backend system for task management with CRUD functionality.
- ◆ Optimized queries for performance & scalability.
 - ◆ Ensured data integrity with validation & error handling.
 - ◆ Tech Stack: Java, Spring Boot, PostgreSQL.
 - ◆ GitHub: github.com/To-Do-App/Aduagba90

Note Management App (Frontend)

- ❖ Built a lightweight web app for creating and organizing notes with offline support.
- ◆ Implemented LocalStorage for persistent data storage.
 - ◆ Designed a responsive UI for cross-device usability.
 - ◆ Tech Stack: HTML, CSS, JavaScript (Vanilla JS), LocalStorage.
 - ◆ GitHub: github.com/Note-Management-App/Aduagba90

To-Do App (Frontend)

- ❖ Developed a responsive task management app with dynamic UI.
 - ◆ Enabled offline support using LocalStorage.
 - ◆ Added task filtering & status updates (completed/pending).
 - ◆ Tech Stack: HTML, CSS, JavaScript, LocalStorage.
 - ◆ GitHub: github.com/To-Do-App-Frontend/Aduagba90
-

Technical Skills

Programming Languages

- ◆ Java, Python, JavaScript, Dart, TypeScript

Frontend Development

- ◆ HTML5, CSS3, React, TailwindCSS

Backend Development

- ◆ Java (Spring Boot), Python (Flask, Django)

Databases

- ◆ MySQL, PostgreSQL, MongoDB

Version Control

- ◆ Git, GitHub

CI/CD & DevOps

- ◆ GitHub Actions, Docker, Heroku, AWS, Vercel, Cyclic

Testing Frameworks

- ◆ JUnit, Pytest, Jest

ORM (Object-Relational Mapping)

- ◆ Mongoose, Sequelize, TypeORM, Prisma

Soft Skills

- ✓ Strong problem-solving, critical thinking & analytical skills
- ✓ Effective communication & teamwork
- ✓ Time management & adaptability
- ✓ Design thinking & innovation
